

INSTRUCTIONS FOR ANACONDA INSTALLATION

Step1: Go to the below web url

<https://www.continuum.io/downloads>

Step2: Download Python 2.7 version for 64-bit Installer.
Don't download the other versions like Python 3.4

Step3: Once it's downloaded, Double click the Anaconda installer and follow the prompts to install to the default location.

NOTE: Do not install as Administrator unless admin privileges are required.

NOTE: If you encounter any issues during installation, please temporarily disable your anti-virus software during install, then immediately re-enable it. If you have installed for all users, uninstall Anaconda and re-install it for your user only and try again.

After a successful installation you will see output like this:
